EVERBEARER

7000 QUARTS PER ACRE THE FIRST YEAR

Never before have we seen a Strawberry that charmed us so with its live glistening beauty! "Brilliant" berries are so bright and appetizing that you can almost taste them before they reach your mouth. "Brilliant" flavor is an outstanding accomplishment—rich and tangy but lacking in acidity so common in everbearers; so sweet and juicy you can enjoy them before fully ripe. The flesh is of firm texture and solid throughout. Fine for preserves, and top quality when frozen. In actual tests by an impartial experiment station "Brilliant" outproduced all other everbearers by over 2000 quarts per acre. It is acclaimed the "World's New Everbearing Champion." Give this superbearer a chance in your garden this year. You can be sure of having fresh strawberries every day from June to Frost with "Brilliant." And you can be sure of big profits too. Order some today.

Reliable Thrifty STRAWBERRIES

Emlong's PREMIER

The Dependable Strawberry

The best selling strawberries from coast to coast, they are the earliest — the top-notch variety — and truly the queen of Strawberries. Premier starts to ripen early and continues through June, always bearing a heavy crop. The berries are uniformly large, bright scarlet-red, long, pointed in shape. Even after being trucked long distances they still look fresh, bright and delicious. Premier is wonderful for fancy dessert and canning. Plants make a good fruiting row. Perfectly self-pollenizing. **Set plants in April and May. They will bear next year.** Ready to ship after April 1.

NEW — Arrowhead ARROWHEAD

Latest Introduction from Minnesota

Developed by the University of Minnesota Experiment Station, this new Strawberry combines all the qualities to make it a leading, early bearing variety. Berries are of large size and uniform shape; rich dark red color. The flavor is extra good and sweet. Berries are juicy yet firm and retain their attractive appearance even when shipped long distances. We consider it an outstanding market berry; good for desserts, freezing and jam. Try a planting of this new June-bearing Strawberry this spring — it is sure to be a big seller.

Emlong's "SUPERFECTION"

A Leading Everbearer

Big, juicy, richly flavored, red berries on your Superfection plants in 12 weeks. You will say they are more firm and have better keeping qualities than other everbearers. They do not discolor after picked. Marvelous yielder. Superfection berries ripen all over and pollinize perfectly. They're smooth and shapely.

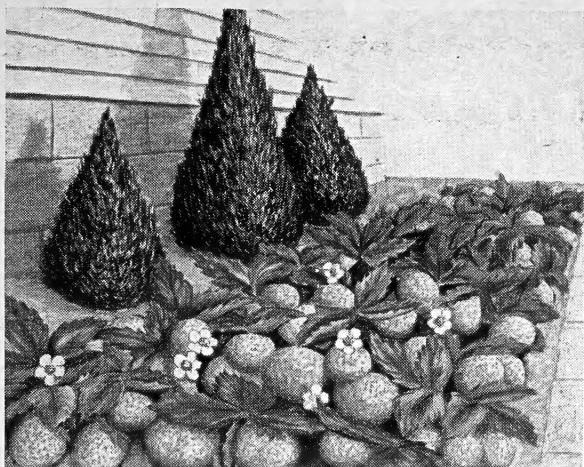

Superfection is a very thrifty strawberry plant. Tested on leading types of soil it has proven to be rugged and hardy in Northern Michigan. Withstands adverse weather conditions and requires no special care. Plants set in April or May have ripe berries by August **this year**. Full crop all fall, and **two crops next year**. Don't delay, order your plants today.

The Perfect Border Planting

BRILLIANT

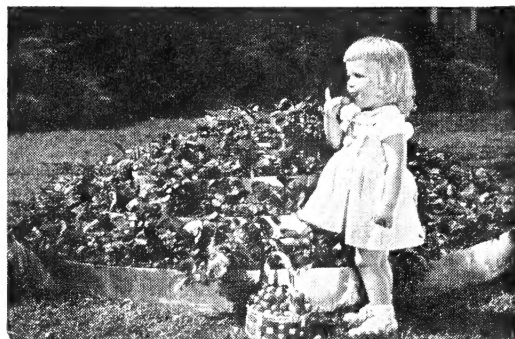

EVERBEARING STRAWBERRY

The newest sensation! A brilliant everbearing strawberry border. Imagine! Glossy green plants covered all over with sparkling red berries. The most beautiful and useful border you can plant. A 20-foot brilliant border bears enough tasty berries for fresh strawberries on your table every day all summer. When planting your brilliant border, set plants 12" apart and remove runners, or set plants 16" apart and leave runners on. This allows the plants to fill in, forming a beautiful complete border loaded with delicious red strawberries. Plant a brilliant border this year. (See front cover for prices).

WE PAY POSTAGE ON MOST ITEMS

You will please note that most items in our 1952 spring catalog are delivered to you postpaid, and are so listed. This saves you money.

There are, however, some items that are too large to ship by Parcel Post, such as fruit trees and shade trees. There are items such as hedge plants, and some varieties and quantities of berry plants that are listed at such low prices for the high quality of stock that we cannot afford to pay the shipping charges. These items are shipped to you transportation charges collect.

In some orders there are trees which must go by express, and also some stock which would ordinarily go by Parcel Post. In order to avoid making two separate shipments we send the entire order by express. For this privilege we include extra stock which has a greater value than the amount of the extra transportation charges. When selecting this extra stock we will choose items that fit in with the other items on your order.

DON'T WAIT — ORDER TODAY!

Items listed in this catalog will be reserved for you as long as the limited supply of some of them lasts. Many items were sold out early last year! Don't wait until planting time — reserve your needs as soon as you receive this book! We send you a receipt and ship at planting time. First orders will receive first attention.

OUR GUARANTEE TO YOU

(1) Emlong's guarantee everything to **reach you in finest growing condition**. If found to be otherwise make damage claim within 3 days after receipt of stock and we will replace damaged items free.

(2) Emlong's guarantee all stock to **grow and live**. If anything fails report such loss to us within thirty days, or not later than July 1st. We replace during the next planting season. Half-price replacements from July 1 to September 1. The Nursery will not be responsible for losses caused by unfavorable weather or improper planting care.

(3) Emlong's guarantee everything to be **true to name**. If found to be otherwise, we will replace free upon due proof of untruthfulness.

THERE'S NO RISK IN MAIL ORDER BUYING

Because you are protected by our written guarantee. Order early — send a remittance to reserve your stock. Be sure to give complete name and address when ordering, also express office.

THE RIGHT TIME TO PLANT

Plants and trees shown here can be planted in March, April, and May. (Dormant trees and shrubs can be shipped to southern states earlier). Strawberry and perennial plants cannot be dug until our ground thaws, which is usually early April. Perennial flower plants, especially Mums, Dahlias, Gladiolus bulbs, thrive best in Northern states if planting is delayed until late April or May. If in doubt, let us ship at proper planting time for your locality. Reserve orders early!

Unusual Flowering SHRUBS

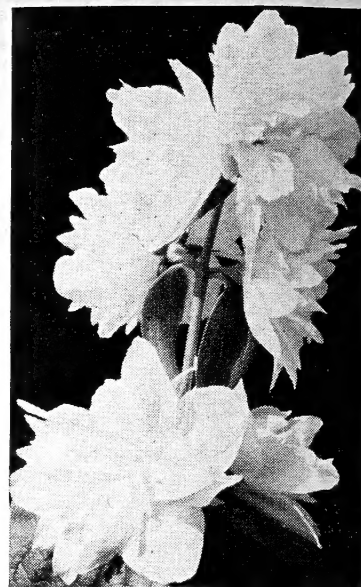

That will add distinction to your landscape planting.

Hybrid FRENCH LILACS

The loveliest forms of this universal garden favorite, the gorgeous French-type budded Lilacs. Single and double flowers in panicles 8 to 12 inches long. Make compact, shapely bushes. They do not sucker, but bear loads of flowers every spring. French Lilac shrubs are desirable for lawn specimens, in corner groups, mixed shrub plantings and for Lilac hedges. Plant 5 feet apart. They grow 6 to 8 feet tall. Trim as desired. **Colors: Red, White, Blue.** 2-yr. field-grown, \$1.10 each; 3 for \$3.15; 6 for \$5.95, postpaid.

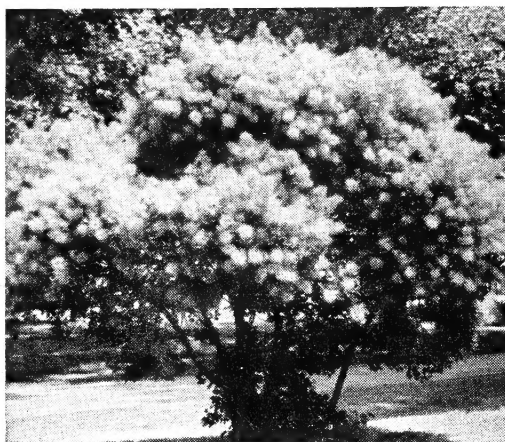

French Lilacs

Snowflake

VIRGINALIS SNOWFLAKE (Mock Orange)

Large clusters of double and semi-double flowers with golden stamens. Bloom freely in June and July, and occasionally thereafter. Shrub grows 5 to 6 feet tall. Will thrive in full sun or part shade, ordinary soil, ordinary moisture. Trim as desired. 2-yr., blooming-age plants, 90c each; 2 for \$1.75; 4 for \$3.40, postpaid. King Size, heavy 2-3 ft. plants, \$1.50 each, postpaid.

Purple Fringe

PURPLE FRINGE (Smoke Tree)

Huge clusters of misty purple flowers make this tree-like shrub resemble a great "puff of smoke" when in bloom. Grows 6 to 8 feet tall; may be trimmed as desired. Flowers are long lasting and make a beautiful display during late summer. (Ours is the hardy variety that can be grown in the northern states.)

Persian Lilac

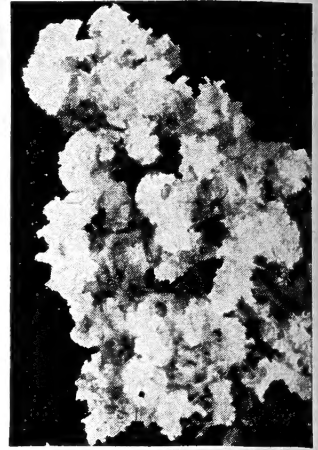

Unusual FLOWERING SHRUBS

← BLUE MIST SPIREA →

(Caryopteris) The lovely new Blue Spirea. A cloud of fringed powder-blue flowers cover the low rounded plant in August through fall and are fine for cutting. The graceful mound grows only about 2 feet tall; fine foliage is silvery green. A splendid new, hardy plant for the flower border or for foreground of shrub plantings. 2-yr., field grown, 90c each; 2 for \$1.75; 4 for \$3.25, postpaid.

Watermelon Red CRAPE MYRTLE →

This plant, which is so much a part of southern beauty, is now available in hardy form for use in northern climates. Habit similar to Buddleia; dies down to ground each winter in the North but throws up new shoots each spring, and flowers in summer. For a real thrill in plants, we recommend this one. Will grow in any good garden soil. Plant about 3 feet apart for borders. 1 to 1½ ft. plants, \$1.00 each; 2 for \$1.95; 4 for \$3.65, postpaid.

RHODODENDRONS Excellent New Hardy Hybrids

One of our most elegant native plants. The Rhododendron is always a thing of beauty and if reasonable care is used in growing them, they are perfectly adaptable to use in most sections of the country for landscape work and foundation plantings. These Hybrid varieties will indeed provide a luxurious appearance when matured. Foliage is large, rich, glossy green in color and stays that way the year around. We cannot guarantee color of bloom since these are hybrids, but shadings run from pink through the lavender shades to deep rose. 9-12 inch, strong field-grown plants, \$1.75 each; 3 for \$4.95, postpaid.

AZALEA MOLLIS Colorful — Unusual — Hardy

Gorgeously colored aristocrats! Clusters of large, waxen blooms completely cover the 3 to 4 ft., graceful shrub in May and June — in rich shades of salmon, yellow, orange, flame-pink. Plant in full sun (in light shade in the South), in soil generously mixed with leaf mold and acid peat in about equal proportions. Each fall a top dressing of well rotted stable manure will induce finer blooms. As flowers fade, remove at once so they will not go to seed. Water freely in dry weather. Do not cultivate. In northern sections, cover through the winter the same as roses. 3-yr., field grown bushes, \$1.25 each; 2 for \$2.40; 4 for \$4.50, postpaid.

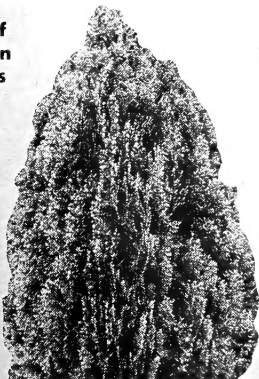

PLANT THESE BEAUTIFUL De Luxe EVERGREENS

Though considered a hothouse plant, you can grow them successfully in your own home. In a sunny window, they will bloom all winter long, delighting you with their lovely fragrance and delicate beauty. Set them in the garden during summer, in sunken pots. 95c each, 2 for \$1.80, postpaid.

Decorative HOUSE PLANTS

GERANIUM

RED FIAT. Beautiful everblooming, bright red geranium. Fine for indoors, or bedding plants.

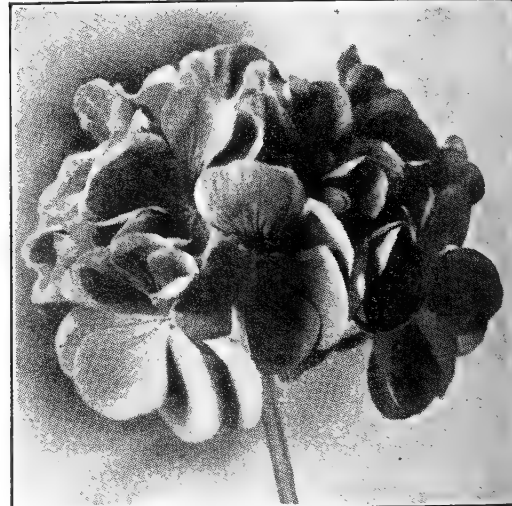

SALMON SUPREME. Large clusters of clear salmon. Make attractive window box plants.

SNOWBALL. Pure white, everblooming, resembling a large snowball.

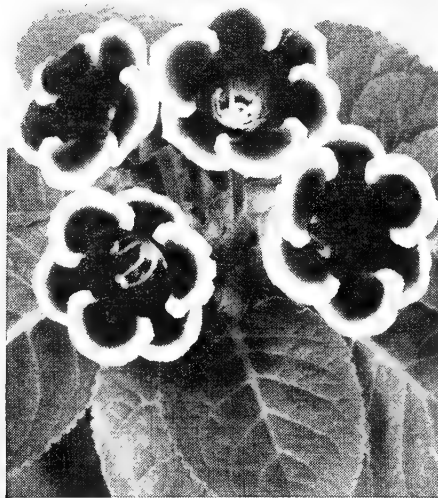

60c each; 3 for \$1.69, postpaid.

IVY GERANIUM

Beautiful flowering vines for porch boxes, hanging baskets and a dozen other uses. Choice of colors: Red, Pink, White. 60c each; 3 for \$1.69, postpaid.

Geranium

GLOXINIAS

Brilliantly colored, mammoth flowering. Colors range from delicate orchid pink to darkest purple. The gorgeous bell-shaped flowers last for months. The attractive large leaves are soft and downy. Plant bulbs from January to late May for continuous blooms. Cover with rich, fibrous soil, place in a warm sunny location. They do best in a South or East window. When leaves start, water from below or carefully at the surface of the soil to avoid getting water on the leaves. The bulbs can be grown over again and again for many years. Mixed colors only. 45c each; 3 for \$1.20; 5 for \$2.10, postpaid.

LOMBARDY POPLAR — Thrives on the poorest of soils and still the fastest growing shade tree. Naturally columnar in growth; needs no pruning. Branches from the ground up, forming a stately accent in background plantings, along drives, alleys, etc., and to plant in groups of three and five in corners. Trees make a dense green fence if planted close together and cut off at the top. Well-branched, well-rooted trees.

Develop Roots

RA-PID-GRO

The Miracle Plant Food

Root Development Is Very Important to Spring Blooming Bulbs and Plants

How Much Will I Need?

To estimate your season's requirements of Ra-pid-gro for each 100 figure at the rate of 1 pound of Ra-pid-gro for each 100 pounds of other fertilizer you have been using. Or the manufacturer recommends the following: For a lot 40x60 ft., with 15 shrubs, 20 ft. of hedge, 3 fruit trees, 2 evergreens, 12 roses, and 800 sq. ft. of lawn, 5 lbs. of Ra-pid-gro for a season's feeding. A lot 40x100 ft., with 25 shrubs, 3 shade trees, 4 fruit trees, perennial bed, a few grapes and raspberries, 10 evergreens, a small vegetable garden, and 1500 sq. ft. of lawn, requires 10 lbs. per season. A lot 75x150 ft., with 48 roses, 40 shrubs, 4 shade trees, perennials, 6 evergreens, hedge, vegetable garden, strawberry and raspberry patch, grapes, 10 fruit trees, and 4000 sq. ft. of lawn will require only 20 lbs. of Ra-pid-gro per season.

What Will It Do?

Ra-pid-gro will work almost unbelievable miracles in promoting rapid and healthy growth on all types of plants. Use it on lawns, around shade trees, evergreens, shrubs, roses, perennials, vegetables and house plants. Many times plants which have been given up for dead will respond to applications of Ra-pid-gro.

EM LONG'S *Patented* FINE MODERN ROSES

CRIMSON GLORY (Plant Pat. No. 105). Enormous double blooms of deep vivid crimson. Long, pointed buds which open slowly. Large, sturdy bushes produce an abundance of extremely fragrant blooms. Foliage plentiful and healthy. A real rose in every sense of the word and a valuable addition to every garden. \$1.75 each; 3 for \$4.65, postpaid.

ERNIE PYLE (Plant Pat. No. 673). Remarkable for its profusion of warm rose-pink flowers of great size and unusually abundant fragrance. Its ovoid buds open slowly and dramatically to create an extravagant display of rose-pink blooms suffused with yellow, starting from the base of each petal. \$1.75 each; 3 for \$4.65, postpaid.

FORTY-NINER (Plant Pat. No. 792) AARS. Forty-Niner is probably the most brilliantly hued bi-colored Rose ever introduced. The inside face of the petals is a vivid oriental red, changing to cherry red. The outside of the petals is a rich chrome-yellow, sometimes overlaid with pink, changing to yellow in the open bloom. These glowing shades contrast vividly, yet blend together so beautifully that you will see why the variety is so outstanding. \$2.00 each; 3 for \$5.25, postpaid.

MIRANDY (Plant Pat. No. 632). Rich, glamorous, deep crimson blooms open from long, pointed ovoid buds. Excellent foliage is heavy in texture and covers the erect, symmetrical branches. Bush is vigorous and sturdy, generally reaching about 30 to 36 inches in height. Very penetrating damask fragrance. Specially fine for cutting as the buds will open slowly into gorgeous 50-petaled blooms. \$1.75 each; 3 for \$4.65, postpaid.

NEW YORKER (Plant Pat. No. 823). A truly red, red rose that stays red until the petals wither and fall. The dark color is clear and sparkling, and the flowers are tremendous—often measuring 6½ inches across. Has a delightful, almost raspberry fragrance. It brings to your garden a continuance of blooms from June until cold weather. Very vigorous, hardy, disease resistant. \$2.00 each; 3 for \$5.25, postpaid.

PEACE ROSE (Plant Pat. No. 591) AARS. Huge blooms! Winner of All America Rose Selections for 1946. Giant many-petaled blooms of glowing yellow open to alabaster-white with pink picoteed edges. Deeply veined, rolled petals. Healthy, abundant foliage. Continuous everblooming Hybrid Tea type. \$2.50 each; 3 for \$6.60, postpaid.

Plant GIANT BLUEBERRIES

Each bush is a fruit garden in itself. Berries are mild and sweet enough to include in any diet. Need no sugar when eaten fresh or frozen; need very little when canned. Berries shown here are actual size Jersey variety. Fruit ripens over a long season and keeps wonderfully on the bushes and after picked. The bushes are lovely in the spring with their huge clusters of Lily-of-the-Valley flowers. Leaves are stiff, waxy green, turning red in the fall. Bushes are easily kept attractive; will thrive on dry land. Make soil acid with peat moss or sulphur fertilizer. Set 5 to 7 feet apart; plant two or more for perfect pollenization. Blueberries are easy to grow, ship well and make a very profitable crop.

BLACK RASPBERRIES

MAJOR

Emlong's New
BLACKCAP Leader

For many years we have been watching new varieties of blackcaps tested and grown, and we have found one that is better than Cumberland. Major Blackcap was originated here in Berrien County, Michigan. The test of any variety is to do more than any other — Major does it!

BIGGEST BERRIES — BIGGEST YIELDS

Major berries are comparatively larger than others. They keep bearing a long time and produce more than other varieties. Major fruit sells at higher prices, therefore, pays better than other blackcap varieties. Very hardy, bushes are erect, healthy and vigorous.

CUMBERLAND. The leading Blackcap wherever grown. Cumberland sets the standard of quality by which others are judged. Cumberland starts to ripen mid-summer and bears through the late season, producing a very profitable crop of large, firm, round, black berries that just "ooze" with rich flavor. Very desirable for home use, canning and freezing, and the market. Plants are self-supporting and non-suckering. Set them 3½ x 7 feet apart in the field or 4 ft. apart in the garden. Plant in March, April, and May.

LOGAN. Early Logan should be in every garden and commercial planting as it is an extra early ripener. Planted along with Cumberland it lengthens the fruit season and increases profits. Logan Blackcaps are round, glistening black, and of very firm quality. Sweet and juicy, they are desirable for fresh desserts, canning, etc. Plants are hardy growers, very thrifty and resistant to drought. Plant in March, April, and May.
